Message from the Camp Staff:

Dear Parents and Guardians,

We believe that nature is essential to our quality of life.
Thank you for sharing that value with your children and for choosing Berks Nature's Eco-Camp for your child's summer camp experience! The building addition adds more space for our campers and we are looking forward to utilizing our fireplace for cooking outdoors!

We plan to build upon the great memories that we created from last year's camp session. We have a very exciting summer planned that is packed with engaging, fun and educational adventures. We have created this handbook to provide you with all the information you should need regarding your child's upcoming camp experience. Please read over all of the enclosed information about the camp policies and procedures. Feel free to contact Anne Muvdi, Preschool and Eco-Camp Director at 610-372-4992 x115 with any questions you may have or if you need further assistance.

Camp Rules Discipline Policy

Camp is the perfect environment to promote social skills and self-esteem in children. To achieve this, we include age specific groups and activities, low camper-staff ratios, positive reinforcement, group and individual decision- making, and attention to the individual needs of each child. You are your child's own best advocate and so we encourage you to share any special information about your child that you feel will help ensure that he or she has a successful camp experience.

All campers are expected to follow basic rules of behavior. These rules will be explained at the beginning of each camp week. Camp counselors will be consistently supervising campers over the course of the day, along with assistance from the camp director.

Camp Rules:

1. All campers must be with a staff member at all times.
2. Campers should be respectful of self, peers, and staff at all times.
3. Play safely and fairly (fighting or threatening behavior will not be tolerated).

Discipline Policy

We believe children learn self-control when adults treat them with dignity and use discipline techniques such as the following:

1. Guiding children by setting clear consistent limits for group behavior. In the case of older children, helping them set their own limits.
2. Visualizing mistakes as learning opportunities.
3. Redirecting children to a more acceptable behavior or activity.
4. Listening when children talk about their feelings and frustrations.
5. Guiding children to resolve conflicts and modeling skills that help them solve their own problems.

Patently reminding children of the rules and their rationale as needed. If rules are broken at camp, counselors ask campers to identify the rule that was broken and counselors give a verbal warning. If the rule is broken a second time, the counselor will supervise a 30-second to 5-minute "break" near the activity. The next step will be to see the camp director. Parents are called when physical contact or repeat infractions are involved.

Special Needs

We strive to meet the needs of all children. In order for us to be able to help your child have an enjoyable experience at camp, we ask that you notify us of your child's special needs prior to your child's first day of camp. This may include information on allergies, accessibility concerns, behavioral, psychological or emotional conditions or other special needs. While we offer our camps to as wide a range of children as possible, it is not possible for us to offer one-on-one care.

Campers requiring more attention than the prescribed camper-to-counselor ratio provided (1:5 – 1:10) depending on the activity, must be accompanied by a parent-provided Therapeutic Staff Support at all times at camp. If your child has special issues or requires a TSS, please contact our Eco Camp Director who will provide additional information to help us meet your child's individual needs.

**Thank you! We look forward to a Safe,
Fun-Filled and Educational Eco Camp season!**
